

Our chiavari chair pads are made with 2" thick high density foam. An extra wide Velcro strap fastens the pad to the chair to prevent separation. There is also double piping on the edges to give a more finished look. These pads provide extreme seating comfort and reliability for your guests. We offer a variety of colors and chair cushions in poly-cotton as well as satin cushions at no additional cost. We also offer pad shams. Additional colors of shams are available upon request.
